

# Jothi Store Receives Unfair Criticism Over Price of Face Masks

Posted by [The Guru](#) / 31 - Jan - 2020

Jothi Store, a household name, in the Singapore Indian Community recently received much criticism from netizens for the price of surgical face masks.

We are facing a scary situation to say the least. The number of comments on social media have been rather xenophobic and ugly of late, with many hateful comments against China and its residents, blaming them for this virus. Its time like this, when we need to

constantly remind each other that we are one human race and community.

We thank Jothi and its team for serving this community for all these years.
